

The Elks Legacy

For 40 years, the Liverpool Elks have been bringing to this community the legacy of our Order's charitable work that began nationally in 1868.

Founded by a group of actors to share fellowship housing on the road, the group early on turned to mutual aid when one of their own passed away and left a wife and children to fend for themselves. This in turn evolved into devotion to charity that has been the cardinal principle of our Order. The gave rise the greatest fraternal organization in the world, and while it has dealt with the changes caused by social evolution in our culture, the basic principles of charity, justice, brotherly love, and fidelity prevail as a guide to conduct our endeavors.
